RE: JERSEY TITANIUM CO.

Resource Applications, Inc.
1000 Cambridge Square, Suite D
Alpharetta, Ga. 30201

Dear Sir:

We are in receipt of your legal communication for the above company received in this office via Certified Mail.

After checking our records and the records of the Secretary of State of Delaware, it has been determined that The Corporation Trust Company is not the registered agent for the above company.

Therefore, we are returning the document received.

Very truly yours,

THE CORPORATION TRUST COMPANY

RE: Fields Brook, Ashtabula County, Ohio, Site No. 46

Dear Sir or Madam:

The United States Environmental Protection Agency (U.S. EPA) in cooperation with the Ohio Environmental Protection Agency, has been conducting response actions to address contamination at the Fields Brook Site in Ohio. U.S. EPA took these actions under authority of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Section 9601 et seq., as subsequently amended by the Superfund Amendments and Reauthorization Act of 1986, Pub. L. 99-499 (CERCLA as amended). Prior to undertaking these response actions, U.S. EPA determined that there was a release or threatened release of hazardous substances from the Fields Brook Site.

The Potentially Responsible Parties (PRPs) that deposited hazardous wastes at the Site were notified and requested to perform the work at the Site but declined to do so. The U.S. EPA undertook the response actions using monies authorized by CERCLA, as amended. Additional PRPs were notified later.

During the response, U.S. EPA undertook several actions at the Site. They included the following: investigation for contaminated sediment in Fields Brook and its tributaries, Hazardous Ranking, and a Remedial Investigation and Feasibility Study (RI/FS).

Response costs associated with this Site have been incurred by U.S. EPA. The approximate U.S. EPA response costs identified up to April 20, 1989, for the above referenced Site are \$969,282.49. A summary is enclosed.

Information available to U.S. EPA indicates among other things that you are potentially responsible for the release, or threat of release of hazardous substances from the Site. Pursuant to the provisions of Section 107(a) of CERCLA, as amended, and based on evidence currently available to the Agency, U.S. EPA believes that you may be liable for the payment of all costs incurred by U.S. EPA in connection with the Site. The PRPs are jointly and severally liable for the whole amount.

Such payment must be made to the U.S. EPA Hazardous Substances Superfund established pursuant to Section 221 of CERCLA, as amended, which is administered by U.S. EPA. Please send your check to U.S. EPA - Region V, Attn: Superfund Accounting, P.O. Box 70753, Chicago, Illinois 60673. Place the site identification number on the check. Please send a copy of your payment check to John Oaks, U.S. EPA, Region V, Waste Management Division (5HSM-12), 230 South Dearborn Street, Chicago, Illinois 60604.

We hereby request that you make restitution by payment of the amount in this letter plus interest, together with any sums hereafter expended by the Agency in connection with the Site pursuant to authority of CERCLA, as amended. Pursuant to Section 107(a) of CERCLA, as amended, interest shall begin accruing as of the date of this demand, if payment is not received within thirty (30) days of the date of this letter.

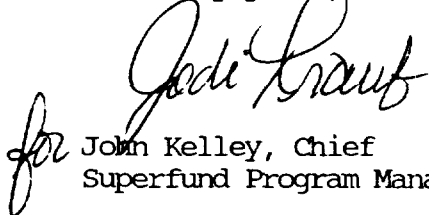

If you desire to discuss your liability with U.S. EPA, please contact Michael Berman, Assistant Regional Counsel, in writing not later than thirty (30) days after the date of this letter. Mr. Berman may also be reached by phone at (312) 886-6837.

If we do not receive a response from you within this time frame, the U.S. EPA will assume that you have declined to reimburse the Fund for the Site expenditures, and pursuant to CERCLA, as amended, U.S. EPA may pursue civil litigation against you.

A copy of your response must also be sent to Mr. Victor Hyatt, 1000 Cambridge Square, Suite D, Alpharetta, Georgia 30201.

The names of other PRPs receiving this request for payment are enclosed with this letter to facilitate organization among the identified parties concerning payment. The PRPs should work out an allocation among themselves to apportion costs.

Sincerely yours,

for John Kelley, Chief
Superfund Program Management Branch
